## OHAUS Centrifuge Announcement

OHAUS is excited to announce our new partnership with Whitehead Scientific (Pty) Ltd, representing a new step towards growing the OHAUS brand in the African market.

As we initiate launch proceedings, we did want to inform you of an important development regarding Hermle centrifuges, a brand you know and trust. In 2022 OHAUS acquired Hermle Labortechnik, allowing OHAUS to offer a full range of laboratory centrifuges. These Hermle centrifuges are now available under the OHAUS brand and for this reason, a decision has been made to cease the supply of Hermle products. With over a century's worth of manufacturing experience, combined with a focus on innovation and quality, we remain confident that the OHAUS centrifuge range will meet both your current and future needs.

This change represents a significant step forward for us, and we are committed to ensuring a seamless transition for all our customers. We understand the importance of maintaining the quality and reliability you have come to expect from Hermle, and we are dedicated to upholding these standards throughout this transition period and beyond.

What does this mean for you?

**Continued Support** – we are committed to providing the industry leading support during this transition period and beyond.

**Expanded Offering** – an expanded product offering of precise, reliable, and affordable instruments.

**Streamlined Communication** – Our team is here to address any questions you may have during this transition. Feel free to reach out to our channel partner, Whitehead Scientific ([sales@whitesci.co.za](mailto:sales@whitesci.co.za)) at any time.

We are truly excited about these developments and are confident that it will result in even better experiences for our customers.

Thank you for your continued support and loyalty to the Hermle brand. We look forward to serving you under this new chapter.

Sincerely,

OHAUS Europe GmbH
